ALL THAT REMAINS II

All That Remains II — DJE Original
Shadowbox Framed Original Art

Warm and expressive, *All That Remains II* continues the collection's meditation on memory, connection, and the traces left behind. Three elongated, looping forms rise through the composition, twisting and curling with an organic rhythm that suggests paths traveled, relationships intertwined, and moments carried forward.

A rich palette of burnt orange, terracotta, ochre, and deep crimson gives the work an enveloping warmth. Broad, intersecting fields of color create an architectural foundation, while the dark gestural linework moves freely across them—softening the geometry with an unmistakably human touch.

A single crimson accent punctuates the lower edge, grounding the composition and adding a quiet signature of intention.
