ALL THINGS SAID

All Things Said

All Things Said is an energetic, layered expression of release—where thought, language, and emotion intertwine across a luminous field of color. A vibrant ground of saturated yellow is worked and reworked, carrying traces of underlying marks, sketches, and fragments of text that surface and disappear within the composition.

Flowing, calligraphic lines in vivid red move freely across the canvas, looping and crossing like conversations unfolding in real time. These gestures feel instinctive and unrestrained, creating a sense of immediacy that contrasts with the quieter, more meditative layers beneath.

Beautifully Shadowbox framed in white: 24 x 30
