PORTO BENCH

There are benches—and then there's Porto. This sleek design brings sculptural comfort and modern glamour together in one striking composition. A series of softly undulating rolls forms the seat and inside arms, creating a rhythmic, tufted landscape that invites both visual admiration and relaxed lounging. The metal base provides structure and lightness, while the sculpted rolls introduce texture and depth, giving the bench a dynamic presence from every angle.

This S+E piece is made expressly for your project by skilled artisans in the USA. Your color, Your dimensions, Your wood, Your Seating
