

ARLES FINE ART REPRODUCTION, VERSION 1

The Cubist movement of the last century sought to reveal the essence of shape and movement in compelling geometric forms with interlocking planes and the thoughtful use of color. How entirely modern! South + English discovered this abstract Cubist homage in Arles, France (hence the name). Available in monochromatic taupe tones or with blue flourishes.

Additional details: Reproduced on canvas with visible brushstrokes. Mounted in a gold-and-black floating frame. Standard as detailed, but we welcome custom collabs. Simply [email](#) now.
