

BEAUTIFUL FELT

Beautiful Felt is a one-of-a-kind original that showcases the layered complexity at the heart of Linwood's visual language. The canvas is rich with texture—built through glazed passages, overpainted documents, and the artist's signature graffiti-like marks that drift across the surface like fragments of thought. Graphic elements interact with loose calligraphy, gestural lines, and washes of color, forming a dynamic balance between control and spontaneity. The recurring bateau motif—one of Linwood's most recognizable symbols—moves subtly through the piece, suggesting the idea of a journey unfolding across time and experience. Each layer reveals traces of what came before, inviting the viewer to look deeper and discover new details with every glance.
