BLOWING IN THE WIND

Blowing in the Wind

Ethereal and quietly evocative, *Blowing in the Wind* captures a fleeting moment suspended in motion. Rendered in a restrained palette of washed blues and muted neutrals, the piece leans into subtlety, allowing texture and translucency to create depth. A single, deliberate accent—a small crimson dot—anchors the composition, offering contrast and a point of quiet intrigue. Float mounted within a refined gold shadowbox frame, the artwork is given space to breathe, enhancing its sense of lightness and dimensionality.
