

CHARLESTON BENCH

Historically, Campaign-style furniture was made for travel. Today, all roads lead to the well-appointed home and our Charleston Bench. The simple clean lines are artfully detailed with corner brackets in polished brass. The bench seat is available in a striking raffia top. Caveat: The Charleston bench cannot be folded and transported to the next camp site, but it IS fab and functional at the foot of the bed (or elsewhere), day in and out.
