

CONSTANTIN COFFEE TABLE

South + English has a penchant for what we call combination pieces. These are designs that mix, mingle and marry different materials and elements. Often disparate. Generally surprising. Always interesting. The Constantin Coffee Table began as the brainchild of English, a ying-yang open form table pairs White Carrara Marble with a richly figured exotic wood, hand rubbed to a gentle sheen. We call the finish Smoked Eucalyptus. Set on a brass plinth base, Constantin appears to float. Dreamy, indeed.
