

CONSTANTIN CONSOLE TABLE

South + English has a penchant for what we call combination pieces. These are designs that mix, mingle and marry different materials and elements. Often disparate. Generally surprising. Always interesting. The Constantin Console Table began as the brainchild of English, a ying-yang open form table pairs White Carrera Marble with a richly figured exotic wood, hand rubbed to a gentle sheen. We call the finish Smoked Eucalyptus. Set on a brass plinth base, Constantin appears to float. Dreamy, indeed.
