DIRECTIONS

Directions — DJE Original (Plaster on Canvas)

Measured and intentional, *Directions* explores orientation, movement, and the quiet logic of placement. A series of circular forms—some open, others filled—are arranged in a structured vertical field, reading almost like a coded map or navigational system. Each grouping suggests a point of decision, a pause, or a shift in course.

The repetition of form introduces rhythm, while the varied clusters create moments of emphasis—guiding the eye through the piece in a steady, deliberate progression. There is a sense of order, but not rigidity; the hand-rendered quality keeps the structure human, intuitive, and quietly expressive.

Framed to highlight its verticality, *Directions* holds a calm authority—grounded, thoughtful, and open to interpretation. A refined original—structured, symbolic, and quietly directional.

Framed size: 41.5" x 62"
