

ECHOES OF HOME

Echoes of Home

Layered with memory and quiet structure, *Echoes of Home* unfolds as a map of connection—fragmented yet wholly intact. Organic, cell-like forms are linked by subtle pathways, creating a network that feels both architectural and deeply personal, as if tracing the invisible threads that define place and belonging.

Echoes of Home is a reflection on how home is not just a place, but an accumulation—of experiences, relationships, and quiet echoes that stay with us. A thoughtful original—connected, introspective, and deeply rooted. Mixed media on canvas

Framed size: 50 x62
