

FELIX FINE ART REPRODUCTION, SERIES 2

Feel it all. The Felix fine art reproduction series is like a meditation. In each, a decisive yet amorphous shape emerges in terra-cotta from a neutral background. Highlights, shadows and (dare we say it?) doodles are layered in like spontaneous writing. Emotive abstract art for the modern home.

Additional details: Reproduced on archival paper, set on a white mat, and mounted in a gold-and-black frame. Topped with glass. Standard as detailed, but we welcome custom collabs. Simply [email](#) now.
