

FLOATING CLOUDS DECORATIVE PANEL

Nimbus, stratus, cirrus, cumulus, we love clouds of every ilk. The heaven's infinite variety inspires the Floating Clouds Decorative Panels. Each wooden disc is hand-carved and then hand-leafed in Oralia Gold or Sculptor White, no two are alike. Matting and shadowbox framing highlights the texture and dimension of each cloud, melding objet d'art and wall art.

Additional details: Oralia Gold Cloud: mounted in a black frame surrounded by blue mat. Sculptor White Cloud: mounted in a white frame surrounded by an off-white linen mat. Finished piece topped with acrylic.
