

GROWING TOGETHER

Growing Together — DJE Original

18" x 22" | Framed Original Art

Vibrant and deeply symbolic, *Growing Together* explores connection as something living—shaped by individuality, shared experience, and the continuous act of becoming. Organic, petal-like forms rise across the composition in an interwoven rhythm, each distinct in color and gesture yet connected through a network of flowing charcoal lines.

Warm shades of blush, coral, peach, and sunlit yellow bring an uplifting energy to the canvas, while soft ivory highlights create depth within each form. The darker lines weave between them like stems, pathways, or roots, providing structure while emphasizing the relationships that hold the composition together.

A joyful original—warm, rhythmic, and beautifully rooted in connection.

Framed size: 18 x22
