

HAMPTON DESK

Simplicity, thy name is Hampton. It's perpetually casual Friday when you work, study, play or plan from home with the Hampton desk. Hampton is simple, but not simplistic. The spacious writing table top stands on a wonderful architectural base, inspired by the sculpture of Brancusi. The finish, a choice of Parchment Oak (shown here) or Jacobean Oak, is wire brushed by hand to tease out the grain of the wood species. Hampton is a tactile experience. With hidden delights. The three desk drawers - perfect for post-it notes, pencils and paraphernalia - are expertly lined in a navy, white and cardamom gingham, giving all new meaning to "show us your drawers."
