

HELD IN MOTION

Held in Motion — DJE Original

Shadowbox Framed Original Art

Ethereal yet expressive, *Held in Motion* captures the tension between movement and stillness—an abstract moment where fluid gestures seem suspended just before they shift again. Sweeping, continuous lines travel across the composition, looping and intersecting as if tracing the path of a thought, a memory, or a fleeting connection.

Layers of powder blue, soft pink, lavender, and deep plum drift across the surface in translucent fields of color. Richer strokes of navy and burgundy introduce depth and contrast, while the pale gestural linework creates a sense of rhythm that moves freely between them.

Presented in a refined gold shadowbox frame, *Held in Motion* feels both intimate and atmospheric—a study of what it means to hold onto something even as it continues to change.

A poetic original—layered, fluid, and beautifully suspended between stillness and movement.

Framed size: 29.5 x 35
