INHERITED WARMTH

Inherited Warmth — DJE Original
Shadowbox framed

Radiant and grounded, *Inherited Warmth* explores the quiet transmission of comfort, memory, and connection across time. Two abstract, vessel-like forms hover within the composition—distinct yet undeniably linked—suggesting a dialogue between past and present, origin and continuation. Presented in a shadowbox frame, the piece is elevated with depth and clarity, allowing its layered color and form to resonate fully.
