ISOLA SCULPTURE

Like most sculptures in the South + English collection, Isola is based on an antique find presently residing in S+E co-founders' (Palmer Smith and David Ebbetts) own home. Entirely made-over, the original piece was cast in bronze. The sense of form and motion captured in S+E's makeover is also decidedly fresh. S+E opted for their prized Sculptor White finish and placed Isola on a Lucite base.

Overall: W11 x D11 x H16.
