MADRID BENCH

The Madrid Bench pairs sculptural metalwork with tailored comfort, creating a composition that feels both refined and architectural. Its hand-wrought steel frame is faceted and expressive, introducing subtle texture and rhythm to the silhouette while showcasing the artistry of the metalwork. The crisp geometry of the frame provides a striking contrast to the softness of the upholstered seat. Cylindrical bolster details at each end add a tailored note and a touch of visual drama, while the generous seat offers comfortable, versatile seating for entryways, bedrooms, or living spaces. South + English invites designers to indulge in the details. ***Buttons, nail trim, and skirts—oh my.***
