

MIMI CABINET

Midcentury Danish design is revered. Deservedly. At South + English we count ourselves among its fans and acolytes. Yet, we can't help but mix it up. The Mimi Cabinet is our Danish-inspired aria with lots of new notes and nuances. The rounded body of the cabinet is a repeat of tonal ribbed panels - each finished individually - topped with a slab of Carrera marble, and set on a plinth base. The finish combination wows: Chamois Buff Oak pairs with Black Carrera Marble. Mimi's inspiration is Scandinavian. The expression is entirely S+E.
