

NESTOR SCULPTURE

We've have an eye for all things equine. So it happened that South + English came upon a horse sculpture in a brocante outside Nice. Clearly the old boy had been put to pasture, strewn amongst other forgotten objet and memorabilia. S+E felt differently and have given this charming statue new life as Nestor, so named after a wise old king in Homer's Odyssey who dispensed sage advice to young warriors. This sculpture speaks to us. And you? Cast in Sculptor White.
