

## QUENTIN DESK

For South + English, design is a process of discovery. The Quentin Desk is a great example. The home office desk was originally conceived with a turned and carved base, but ultimately modernity won out. The spacious desktop boasts three drawers with understated tab pulls, and is set on a simple three-quarter inch metal frame (available in a choice of five finishes). Shown here in London Fog White, plus a choice of additional designer finishes. Modern and hardworking, Quentin is English's favourite desk in the collection (South loves them all).
