SERIES: SWANS IN MOTION

Original art inspired by original photography, this captivating series showcases elegant swans set against richly textured black backdrops. Layers of glaze, overpainting, and bold pops of red create depth, movement, and a striking sense of contrast. Each piece is beautifully finished with a custom **sculptural metal wrap frame**, giving the artwork a modern, gallery-worthy presence.

Shown here as a **set of four**, but each piece is also available **individually**.
Frame size: 14" x 14"

Modern art for uncommon interiors
