

SILENT BEAUTY 01

Silent Beauty I — DJE Original

Dreamlike and expressive, *Silent Beauty I & II* capture the quiet poetry found in color, movement, and moments of stillness. Created as a complementary pair, the works share an atmospheric palette and painterly freedom while maintaining distinctly individual personalities.

Silent Beauty I feels soft and meditative, with layered washes of lavender, blue, and green creating an almost garden-like atmosphere. Fleeting passages of white, crimson, and violet emerge through the surface like blossoms reflected in water—recognizable for a moment before dissolving back into abstraction.

Together, the two works create a compelling dialogue between tranquility and energy—one whispering, the other responding. Their shared palette and expressive brushwork connect them visually, while subtle differences give each canvas its own presence.
