STANDING WILD 03

Standing Wild 03 — DJE Original
11" x 14" | Original Art

, *Standing Wild* celebrates the beauty of growing freely and holding your ground. A gathering of expressive blooms rises across the canvas, their deep violet crowns standing tall above a richly layered field of greens and earthy neutrals. The visible brushwork gives the composition its vitality.

Expressive, spirited, and rooted in the beauty of nature, the *Standing Wild Series* is a collection of four original works celebrating individuality, resilience, and the freedom to flourish. Each 11" x 14" painting offers a different perspective on the same untamed botanical story—from a singular arrangement to fields of blooms standing together.

Deep violet flowers, vibrant greens, and flashes of golden yellow move across atmospheric grounds of blue, ivory, and earthy neutrals. Loose, gestural brushwork gives each piece an instinctive energy, allowing stems to twist, petals to overlap, and color to move freely across the surface.

Framed size: 12 x 15
