

STILL TIME

Still Time is a layered composition that quietly explores reflection, memory, and the passage of moments. Developed through Linwood's signature mixed-media process, the piece reveals his distinctive visual language—subtle washes of color, casual calligraphic marks, and the recurring bateau motif that gently alludes to life's ongoing journey.

Dripping paint, scattered splotches, and soft fragments of thought move across the canvas like passing reflections. These elements gather and resolve into a composition that feels both spontaneous and intentional. The result is a poetic work—one that invites the viewer to pause, look again, and discover new meaning within its layers.

Beautifully Float Framed In Gold Floater style.

Framed size: 38" x 50"
