

## SUBLIMES NO 1, ORIGINAL ART

*Available at Jones-Keena*

Linwood created the Sublimes series (this is no. 1 of 5) in a pitch of artistic fervor and inspiration. Like the furies in Greek mythology - with the notable exception that Linwood's passions are all positive and life-affirming energies - the Sublimes join forces as a striking ensemble, but may also be separated. Each Sublime begins with layers of collage, often newspaper clips. The artist then adds repeat rounds of color - red, blue, black and white - in various consistencies to create texture and drama. The effect is, indeed, sublime. Beautifully framed in Silver.
