

SUBLIMES NO 5, ORIGINAL ART

Available through Allen and James

Linwood created the Sublimes series (this is no. 5 of 5) in a pitch of artistic fervor and inspiration. Like the three furies in Greek mythology - with the notable exception that Linwood's passions are all positive life-affirming energy - the canvases may join forces as an ensemble, but may also be separated. Each Sublime begins with layers of collage, often newspaper clips. The artist then adds repeat rounds of color - red, blue, black and white - in various consistencies to create texture and drama. The effect is, indeed, sublime. Beautifully framed in Silver.
