SUMMER OF LOVE

Summer of Love — DJE Original

Summer of Love captures the feeling of warmth, light, and fleeting joy suspended in time. A constellation of soft, circular forms drifts across the canvas—each one gently imperfect, like sunspots, petals, or distant memories surfacing and dissolving. Rendered in a delicate palette of blush pinks, sun-washed oranges, and creamy neutrals, the composition feels airy and luminous.

Clusters of rings gather and disperse across the surface, suggesting movement without urgency—like moments shared, scattered, and remembered. The repetition of circular motifs evokes continuity and connection, while their irregular spacing keeps the composition organic and alive. *Summer of Love* is a reflection on lightness—on the beauty of moments that feel both ephemeral and enduring.

Framed size: 50 x62
