

TAKE MY HAND

Take My Hand — DJE Original

Expressive and emotive, *Take My Hand* captures the essence of connection through a network of interwoven, looping forms. These continuous lines—soft yet deliberate—move across the canvas like gestures reaching, holding, and responding, creating a composition that feels both intimate and alive.

Set against a layered field of atmospheric blues and slate tones, the background provides a quiet structure, while washes of pale turquoise emerge beneath the linework, adding depth and a subtle sense of movement. Dark, organic centers punctuate the composition, grounding the airy loops with moments of weight and contrast.

Framed size: 50 x 62
