

THE QUIET CURRENT V

The Quiet Current IV — DJE Original

Energetic yet dreamlike, *The Quiet Current IV* explores the way moments surface, drift, and disappear within an ever-changing landscape. Abstract forms emerge from the painterly ground like fragments caught in a current—distinct for an instant before becoming part of the movement around them.

Against this fluid backdrop, expressive strokes of blush, crimson, ivory, and coral introduce warmth and contrast, giving the floating forms a vibrant, almost spontaneous presence. Loose brushwork allows color to overlap and dissolve, blurring the boundary between subject and surroundings. There is an intentional freedom to the composition—movement without urgency, color without constraint, and beauty discovered in what refuses to remain still.

A spirited original—fluid, expressive, and beautifully untethered.

Framed size: 12 x 16
