

THE SHAPE OF US

The Shape of Us — DJE Original

Shadowbox framed

Intimate in scale yet rich in meaning, *Shape of Us* distills connection into a quiet, abstract language of form. Raised plaster lines create a softly structured composition, where interlocking shapes and vessel-like silhouettes suggest relationship, balance, and shared presence. Rendered in a palette of warm neutrals, soft stone, and muted blue-grey, the piece carries a calm, grounding energy. The tactile surface—subtly dimensional—invites light to trace each line and contour, revealing depth within restraint.

Framed size: 20.5" x 20.5"
