

THE SHARE OF CONNECTION

The Share of Connection

Fluid and enveloping, *The Shape of Connection* captures the quiet complexity of relationship through continuous, unbroken line. A looping white form moves across the canvas in an instinctive, almost calligraphic gesture—circling, overlapping, and returning to itself—suggesting connection not as a fixed point, but as an evolving, living rhythm.

Set against a softly structured patchwork of blues, slate, and muted green, the background introduces a sense of balance and grounding. These subtle blocks of color act as moments of pause, while the linework flows freely above—uncontained, expressive, and gently dynamic.
