

## THE TIES THAT REMAIN

### **The Ties That Remain — DJE Original**

*50" x 62" | Original Art*

Expansive and contemplative, *The Ties That Remain* explores the connections that endure even as life shifts around them. Five vertical chains of overlapping circles rise through a broad field of atmospheric blue, each link touching the next in an uninterrupted rhythm—a visual expression of relationships, memories, and experiences carried forward through time.

The composition is divided into two distinct yet connected worlds. Above, layers of turquoise and softened blue create a sense of openness and calm. Below, the palette transitions into a richly worked field of ivory, stone, charcoal, and earth tones, filled with fragmented marks and painterly gestures that suggest history accumulated over time.

A deeply reflective original—layered, atmospheric, and a tribute to the ties that change with us, yet somehow remain.

Framed size: 50 x 62
