

TWO IN STILLNESS

Two in Stillness

Quietly poised and deeply contemplative, *Two in Stillness* distills connection to its most essential form. Two elongated shapes—held within a single, shared contour—stand in gentle opposition, their soft blush and pale ivory tones creating a subtle dialogue of contrast and harmony.

Outlined in expressive charcoal, the figures feel both protected and defined, as if suspended in a moment of pause. The surrounding ground—washed in warm, atmospheric neutrals—adds a sense of calm expansiveness, allowing the central forms to breathe.
