

WILD HEARTS

Wild Hearts — DJE Original

Wild Hearts is bold without being contained, emotional without being defined—a work that invites the viewer to experience it instinctively rather than search for a single interpretation. *Wild Hearts* is an expressive celebration of passion, instinct, and the beauty of feeling deeply. Rich crimson and burgundy bring intensity to the composition, while washes of turquoise, aqua, violet, and flashes of citrus yellow create an electric sense of movement.

At the heart of the work is a sense of duality: two energies existing independently yet drawn toward one another. Their boundaries are fluid, their connection imperfect and dynamic, reflecting the unpredictable nature of relationships, desire, and the courage to live without restraint.

A spirited original—passionate, expressive, and unapologetically alive.

framed size: 38 x 38
