WILLIAM CABINET 4-DOOR

William 4-Door Cabinet
The William 4-Door Cabinet is a study in rhythm, proportion, and refined contrast. Its striking façade is defined by a repeating pattern of elongated, rounded forms—an interplay of geometry that creates movement across the surface while maintaining a calm, ordered composition. The result is graphic yet restrained, bold yet beautifully balanced.

Framed by a contrasting case, William carries a strong architectural presence while maintaining a clean, composed silhouette. Behind its artful exterior lies generous storage, making the piece as functional as it is expressive.
